EXPERIENCE

Flight Dispatcher | Porter Airlines Inc.
2018 - Present

As a qualified Dispatcher, I am responsible for exercising safe and efficient operational control over Porter Airlines flights.

- Issuing and revising the Operational Flight Plan in keeping with safety, regulatory and corporate requirements.
- Analyzing and identifying opportunities that may benefit or restrict operational capabilities, including, but not limited to, weather, airport status, enroute restrictions and aircraft performance.
- Exercising operational control on a co-authority basis with the Pilot-In-Command with respect to the safe of all aircraft.
- Resolving with Maintenance and the Pilot-In-Command as required, all conflicts prior to or during flight, which may limit or impact the aircraft's operational capabilities.

Station Coordinator, Passenger Advocate | Porter Airlines Inc.
November 2011 - October 2018

Working closely with a Duty Manager, Network Coordinator and Maintenance Supervisor, to ensure the smooth completion of all scheduled flights with minimal passenger and operational disruptions.

- Coordinate delays and cancellations to minimize passenger impact by communicating with local staff and external airport stations to prioritize the flow of passengers.
- Liaise with internal and external Airport Operation Coordinators, Maintenance Supervisors, Call Centre Leads, Customer Service Representatives and Sales Agents at all Porter stations across the Canadian and U.S. networks.
- Review and verify passenger documents for the Canada Border Services Agency and Department of Homeland Security.
- Respond to internal inquiries from Customer Service, Operations, and Call Centre agents.
- Track Irregular Operations, schedule changes and respond accordingly.

Technical Support | 4sixteen Solutions / Fonality
November 2007 - December 2011

- Domain registration, website hosting and design.
- Colocation server maintenance.
- VOIP sales, service, training and development.
- VOIP IP-PBX tier 3 technical support.

I.T Service Dispatcher | ADT Intercon Security
Febuary 2001 - November 2007

- Audit security systems to maintain contract compliance.
- Service dispatching and remote technical support.
- Install, audit and commission security equipment for RBC, TD, and Scotia bank.
